Technical Drawing

Features and Benefits

Authentic timber-look styling

Designed to replicate traditional sash windows with run-through horns, deep bottom rails, and sculptured detailing—ideal for heritage or conservation settings.

Modern performance, classic design

Delivers the look of timber with the benefits of PVCu—low maintenance, high durability, and improved thermal efficiency.

Smooth slide & tilt operation

Both sashes slide vertically and tilt inwards for easy cleaning and ventilation – ideal for upper floors.

Flexible design options

Available in a wide range of heritage colours and woodgrain foils, with options like Georgian bars or sash horns for a bespoke finish.

Maximum sash sizes

Vertical slider: 1400mm (w) x 2450mm (h)
